

SYNTHETIC TEST DATA - NOT A REAL INSURANCE POLICY

Private Car Package Policy Schedule

Detailed fictional reference document for a straightforward, admissible own-damage claim.

Policy Number	POL-HAPPY-2026-1024
Policyholder	Meera Iyer (Synthetic Test User)
Vehicle Registration	KA-00-HAPPY-2026
Vehicle	Metallic blue compact hatchback - fictional test vehicle
Chassis Number	MA3HAPPYPATH2026001
Engine Number	ENG-HAPPY-2026-4421
Policy Period	01 January 2026 to 31 December 2026
Policy Type	Private Car Package Policy
Insured Declared Value (IDV)	INR 780,000.00
Own Damage Sum Insured	IDV, subject to policy terms and applicable deductions

Coverage Summary

Own Damage Cover	Covered: accidental external means, fire, theft, natural perils and transit, subject to exclusions.
Third Party Liability	Covered as required under the policy schedule; not assessed for this own-damage repair claim.
Accidental Damage	Covered for the documented front-right collision during the active policy period.
Compulsory Deductible	INR 1,000.00 per own-damage claim.
Voluntary Deductible	Nil.
No Claim Bonus (NCB)	20 percent shown for premium rating. Claim handling must follow the applicable policy conditions.
Depreciation	Applicable where required by policy terms for replaced parts unless a valid zero-depreciation add-on applies.
Zero Depreciation Add-on	Included for this synthetic test policy.
Roadside Assistance Add-on	Included; service benefit, not part of repair reimbursement.

Claim Admissibility and Review Guide

This section uses industry-standard terminology in a fictional scenario. It is a test fixture, not legal or coverage advice.

Happy-path claim facts

Incident Date	10 September 2026 - within the active policy period.
Incident Type	Minor front-right collision with a roadside barrier.
Requested Reimbursement	INR 36,500.00.
Supporting Evidence	Claim form, RC, driving licence, four angle photos, garage estimate and invoice.
Expected Settlement Logic	INR 36,500.00 less INR 1,000.00 compulsory deductible = INR 35,500.00, subject to reviewer confirmation.

Terms for extraction and validator review

- **IDV:** Insured Declared Value; the vehicle sum insured for own-damage purposes.
- **Own Damage:** Loss of or damage to the insured vehicle, subject to the policy wording.
- **Third Party Liability:** Liability for injury, death, or property damage involving third parties.
- **Deductible or Excess:** The amount borne by the insured before the insurer pays an admissible claim.
- **NCB:** No Claim Bonus; a premium-rating benefit that may be affected by a claim.
- **Depreciation:** A reduction applied to eligible replacement-part value where the policy requires it.
- **Endorsement:** A documented amendment to the policy terms, cover, vehicle, or insured details.
- **Exclusion:** A circumstance or loss category that is not covered under the policy.
- **Surveyor Report:** Independent assessment evidence used to support damage and settlement review.
- **Cashless Repair:** Insurer-network repair arrangement; not required for this reimbursement test scenario.

Synthetic happy-path review conclusion

The fictional policy is active, the vehicle and policyholder identifiers are consistent, the photos support localized front-right collision damage, and the requested repair value is within the stated IDV. A human validator should still confirm document identity, licence validity, incident details, repair evidence, exclusions, and deductible before approval.

Source terminology reference: IRDAI public motor-insurance guidance and standard private-car package-policy concepts. All names, identifiers, dates, vehicles, values, terms arrangement, and coverage facts in this document are fictional.
